SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. In abstract, concise the background, mention the study area, elaborate major findings, benefits reaped, parameters considered for success of the project. 2. Keywords must not include words included in the title. Include other suitable words. 3. In materials and methods describe the study area with a location map, selection procedure of households and its percentage and mention about experts. 4. In results, include discussion to compare and contrast the findings with other studies. 5. Describe the findings in different development programs. Editing is required specially in results as there are many typo-mistakes and mix of past and present tenses.	Abstract is revised as per the format of Science Domain. Actually, the whole paper is revised, corrected and formatted as per science domain format. Map and geographical position added. Described as per objective
Minor REVISION comments	Change the title as Assessment or Analysis of in Rangmati.....	Title changed as per suggestion
Optional/General comments	Elaborate different watershed development activities and benefits of watershed projects under Introduction.	The paper actually wanted to show that except physical impact, watershed project had impact on psychological aspects like attitude change also. It is shown in the study.
