SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<ul style="list-style-type: none"> - The abstract should be edited; it should only include the aim of the study, the methodology, and the main findings. - The introduction and the conclusion should also be edited; they are not well done. - The manuscript needs to be proofed; it still contains too many grammatical blunders. 	I would like to thank the reviewer for his rigorous evaluation. I have made necessary corrections for related sections that he suggested.
<u>Minor</u> REVISION comments	<ul style="list-style-type: none"> - Equations should be written with the proper tool (equation tool) included in Microsoft Word software package. The equation tool can be found under "insert" menu. - Tables and Figures should have their source(s) mentioned above them. 	I have rewritten the equations by using equation edit.
<u>Optional/General</u> comments	This topic is quite interesting and the various techniques reviewed give some credit to the study; but, the language is not suitable for publication.	I would like to thank especially for the grammar and language mistakes. I have made necessary corrections.
