The authors are trying to revise their manuscript according to the review comments. However, till now it required some corrections. For example, the authors should write the followings by using equation editor or Math Type.

Pi : ...(i=1,......,n)

XI :

T :

And so on.

It is suggested to use three dots in case of (i=1,......,n) like (i=1,...,n).

I made the last corrections for the equations.

Pi : the market share of ith firm(i=1,...,n)

i= 1,...,n,...N

j=2,...,N

$$HHI = 1/N$$

$$HHI = \sum_{i=1}^{N} (1/N_i))^2$$

$$(1/N)\log(1/(1/N))$$

$$E = (1/N)logN$$

$$E = (1/N)logN + (1/N)logN + \cdots + (1/N)logN$$

$$E = logN$$
