SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The following revision comments are given below; 1. The study is quite interesting but the title of the study can be modified to incorporate the location of the study. "Social Media Usage and its Addiction Level Among Generation Y Agricultural Scholars in Meghalaya, India" 2. In my own opinion, the study can be strengthened further by including some specific hypothesis testing to scientifically validate the researcher's findings. 3. Also, the theoretical and empirical background to this study is conspicuously missing.	Thanks a lot Sir/Madam for your valuable suggestion. I have made the necessary changes in the manuscript as suggested by you. Sir I fully agree with your suggestions but ours was a pilot survey and due time constraints we couldn't went for hypothesis testing.
<u>Minor</u> REVISION comments	The minor comments are already included in the main manuscript for further corrections.	Have made the necessary changes as per your suggestions.
<u>Optional/General</u> comments
