PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I am still not happy with the write-up based on the following reasons: i) Spelling errors still can be found in many parts of this paper (i.e. December, newspaper etc.) ii) I believe that the authors did not check the grammatical error and English sentences. There are too many mistakes. iii) The article set-up of format is too far from the standard academic writing (APA format). Look at the Tables, Figures and Numbering. iv) The arrangement of Paragraph also found to be not consistent. v) The results of the Findings were not academically explained by the authors. The R square is too low. The findings are not valid. vi) The conclusions and recommendations are not relevant as the results are not valid. Please take my previous comment SERIOUSLY.
