PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The introductory section of the paper should be thoroughly and carefully edited. For example, the author stated that: “With 2015 close by, it is becoming clear that many countries in the developing world will not be able to meet the target of halving poverty. In fact many countries in Sub Saharan Africa and several in Asia and Latin America are Seriously off track for meeting the goal” This is a seriously belated fact as we are currently in 2017, two years after 2015.	
Optional/General comments
