SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. In section 4.1 author(s) are discussing land tenure characteristics in length but how does this relate to profitability of ginger? 2. In Section 4.4, calculations in Table 1 are not correct (it indicates gross income as 8,050,000 while calculation reveals that it is 7,050,000) and this means Return per man-day is 33,894.23 and not 44,475! This means data is not well controlled and robust. 3. Study is on ginger production but in section 4.3 the author/authors is/are discussing tobacco! 4. Many sentences in the manuscript need to be re-written for correct grammar and clarity. Some of the sentences are not complete. 5. Statistical analysis is required for this study. However, there are no tests of significance done. 6. Author(s) did not discuss their findings on profitability of ginger farming to smallholders in Tanzania in relation to outcome of other relevant studies elsewhere.
