PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is generally well written, but there are minor problems with the English language. I thus provide suggestions for improving the English text, which the authors may consider.	
Minor REVISION comments	I have indicated in the text the desirability of (1) providing the international reader with a relative notion of what an income of 50 thousand rupies represents in the Indian economy, and (2) providing scientific names for the species of fish used in the study.	
Optional/General comments	This is an interesting paper worthy of publication.
