PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article is quite original and interesting in its development and structure. The author's statement is clearly identified and stated throughout the article, though the conclusion seems a bit scarce bearing the mind the great amount of data and tables provided within the article. Good sample in which the article is based on is also provided together with the numerous tables supplied.	-
<u>Minor</u> REVISION comments	I would suggest the author to improve the conclusions offered at the end since they do not reflect wholly what has been discussed throughout the text.	Conclusion part has been improved
