Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- Include the map of the study area - Specify the objective(s) of the study. What is provided is the ultimate goal. What are the specific objective(s)? - On line 99: is Omonona and Agoi (2007) but on the list of references is Omonona (2007). Verify the citation and confirm that the list of references is accurate. - Swaminathan (2001) mentioned in the text is not reflected on the list of references. Thorbecke (1984) suffers the same fate.	I have difficulty obtaining the map from the local government officials and this could delay indefinitely. I will appreciate it if you kindly waive this requirement for this paper. Done Done Done Done
Minor REVISION comments	You may consider Replacing "translated" on line 23 with translates and "reported" on line 66 with reports	Done
Optional/General comments	- You may separate data/information in Table 3.1 in such a way that records on education, age, and monthly income can be presented in form of bar graph or pie chart. - It is not clear as to when or at what stage and how food security index was used. - Add significant coefficient on line 105. - Any significant recommendation(s) or lesson(s) that is/are based on the study/ findings that can be used to influence policy or government decision on food security? If yes, state such lessons or recommendation before concluding the text. - Verify and confirm if the following citations are mentioned/made in the main text; Rausser (eds), Barrett (2002), - Confirm that the list of references is in conformity with the requirement of the Journal. Use et al. where more than two authors are cited.	Done Done
