PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This paper mainly studied on Adoption of Precision Technologies in Bitter Gourd Cultivation at Thoityam Block of Tiruchirappalli District. In fact, this work is well done. And the authors have respected the structure of scientific writing. The abstract accords the paper and reflects the research. The keywords are concise and distinctive. The authors introduce the study background clearly and some related works are cited. And the results are also given a detailed explanation with few tables. However, there are still some little problems in the paper. Overall manuscript qualifies for publication with changes, as suggested.	Thank you very much for your appreciation and valuable suggestion to enhance the value of my papers. The suggestion given by you is accepted and will be taken for revision.
Minor REVISION comments	Wording and details of how samples was selected needs to be work on. The author is suggested to make some revisions so that the paper will be better.	
Optional/General comments	Appropriate and contribute to Adoption of Precision Technologies in Bitter Gourd Cultivation
