SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Title of manuscript is economic and management evaluation of mutton production but aims mention in abstract is "present scenario of mutton production and its farming practices". There is nowhere in manuscript mention the present scenario. Management, Production and farm practices all have different meanings so made it cleared what aim manuscript represent. Line17: Results revealed that majority (51.85%) of respondents was above "Write were instead was" in whole result replace was with were Key words: write the main keywords only In introduction part: - Line 59-60 the objectives "To identify the potentials of mutton farming in the study areas" have you discussed it. - To examine the socio-economic characteristics of mutton farmers and To observe the production and management systems of small ruminants Make it clear in result which variables represent yours socioeconomics and which part represent yours production and management systems of small ruminants Sampling procedure: Five to six farmers were interviewed per village giving. Write exact number of respondents' selection per villages instead five to six .Sampling must be clear. Data collection and analysis: Mention the scales that you have used to collect input and output information in structured questionnaire RESULTS AND Discussion: In line 59 to examine the socio-economic characteristics of mutton farmers but in result only age and education is mention which represent only socio-personal characteristics. Line 119: Farm area, area covered and housing type for mutton animals Farm area, area covered represent socio-economics of respondents while housing type is management part so don't mix up. Farm area, area covered, Flock size, Breed is under socio-economics of respondents Write housing, feeding pattern under management part .Write complete Parameters that comes under management parts only hosing /feedings don't covers management. The broad parts of managements are Housing, Feeding, Breeding and Diseases management. Result of Economics of mutton production is good but discussion is lacking write discussion of whole result and economics especially. CONCLUSION: Write it on the basis of yours findings rather than writing facts	- Added - Changed - Changed - Yes - Yes - In Socioeconomic (Farmers Age, Education, Ethnicity, Occupation, Farm area, farm covered area, construction cost) - In Production / Management Systems (Animal breeds, sex, Housing, Feeding patterns etc.) - As per village farmers population, five to six farmers were selected - Scale used for Input and output information frequency. - Changed - Revised as per needed.

SDI Review Form 1.6
