General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	How was consent given by participants? How was the sample size determined (was a Power Analysis conducted)?	Sample size is done by considering: a. The budget held for the 3-day training course includes: the cost of equipment and training equipment, participant's cost of consumption and training tutor, participant's allowance and honorarium tutor b. The success of the program of teaching and learning activities (PKBM)
Minor REVISION comments	The in-text citation formatting should be revised; specifically the year of publication for each article. Also, it is recommended that the literature review be synthesized; or integrated, rather than segmented by different authors. Also, updating the references is suggested. Furthermore, elaborating on the recommendations and connecting those to other literature presented at the beginning of the article is suggested.	
Optional/General comments
