

SDI Review Form 1.6

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_37465
Title of the Manuscript:	Using Behavior of Agrochemicals and Pesticides and Their Impacts on Human Health: A Perception based Rural Study in Bangladesh
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors described the using behaviour of agrochemicals in Rangasree, Bangladesh. For overall data is ok but the way they presented in the manuscript is not clear especially in the part 3. I suggest them to combine the result of study area and discuss together with the whole country. It is easier for readers of the journal to understand. Parts 3.9-3.10 Authors should compare their results with other reports and cited the references. 3.11 It looked like standard regulations, it should have references to confirm that these regulations are proved.	
Minor REVISION comments	- Many typing errors, I have corrected some in the original manuscript but authors should look through the manuscript. - Photo A-D should change to Figure and re-numbering the Figure - Part 3.10 I think use symptoms is more suitable than diseases (including skin diseases should change to skin lesions)	
Optional/General comments
