

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

|                          |                                                                                    |
|--------------------------|------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Asian Journal of Agricultural Extension, Economics &amp; Sociology</a> |
| Manuscript Number:       | Ms_AJAEES_39224                                                                    |
| Title of the Manuscript: | A REVIEW OF THE ENTREPRENEURIAL BEHAVIOR OF FARMERS: AN ASIAN-AFRICAN PERSPECTIVE  |
| Type of the Article      | Review Article                                                                     |

**PART 2:**

| FINAL EVALUATOR'S comments on revised paper (if any)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Authors' response to final evaluator's comments |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|
| <p>(1) Good corrections but usually when we use numbers for the references we still have to respect how Intext referencing is written. Therefore, I am attaching a <b>corrected version of the manuscript for the sake of clarity and finalization of the process.</b></p> <p>For example, if starting the sentence, we do not say [4] depicts the following rather we say Chaudhar et al. [4] depict the following.... Another example, instead of: [13] concurs with [12] assertion that entrepreneurship involves... We Use: Pihie [13] concurs with Uddin and Bose's [12] assertion that entrepreneurship involves...etc...</p> <p>All these statements were corrected.</p> |                                                 |

**Reviewer Details:**

|                                  |                                                                          |
|----------------------------------|--------------------------------------------------------------------------|
| Name:                            | <i>Hussin Jose Hejase</i>                                                |
