

SDI Review Form 1.6

Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_39355
Title of the Manuscript:	Nexus between Household Asset Base and Agrarian Livelihood Strategies' Diversification: Using Multidimensional Approach
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is an interesting study. However, it needs minor revisions as follows: INTRODUCTION - It needs very minor language editing with the correct use of tenses. For example - o Line 31 – delete 'focused' - o Line 55 – delete 'series' CONCEPTUAL FRAMEWORK - Some claims need citations. See for example lines 65 -68. Knowledge claims need to be supported by references. - In line 77, the authors mention that the "...asset categories are admittedly a little contrived..." This implies that there is an alternative conceptualisation that needs to be embraced to counter this weakness. Several studies have been done to counter the weaknesses of the sustainable livelihood framework. The authors need to discuss such. Analytical Procedures and Econometric Models - Line 188 – 189 needs a citation Conclusion - It is the weakest section of the paper. It needs major revision in terms of content and language. Align it to the research objective and results. Recommendations should match with the findings.	
Minor REVISION comments		
Optional/General comments
