PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Excellent and interesting article which is suitably divided into different parts whereby the analysis of the topic is conveyed by means of tables and figures. These data back perfectly up the author's point of view, being also supported by an accurate analysis of the previous literature conveyed.	
<u>Minor</u> REVISION comments	Both the abstract and conclusion sections seem rather short. Especially, the conclusion is elusive and does not fully conclude or state all the information gathered in the article. I would recommend the author to expand them both somehow.	
<u>Optional/General</u> comments
