Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The manuscript is also generally well-written as far as the English language is concerned. I, nevertheless, had some problems with this manuscript. I recommend the manuscript to be published, but, I argue that some minor and moderate corrections should be made before publishing.	The minor corrections have been effected.
<b><u>Minor</u></b> REVISION comments	Headings of terms given before abbreviations in the text are capitalized (The Titratable Acidity etc.). Latin name given the bottom striped on page 4, line 22, must be corrected.	I do not clearly understand what the reviewer means by saying that the headings of terms given before abbreviations in the text are capitalized.  I think <i>Capsicum frutescens</i> is the correct Latin name and need not be corrected
<b><u>Optional/General</u></b> comments
