General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	In the abstract; period and place of research was not mentioned and is very important. The varietal name should be mentioned in the abstract for it to serve as a summary of the whole article. Similarly, objectives of the study though mentioned but need to be written as a single sentence (not broken in to 1, 2, etc)	
<u>Minor</u> REVISION comments	The objectives of the study should be stated clearly at the end of introduction and tally with that in the abstract. Names of the varieties were not mentioned in material and method section. There is need to mention the names of the varieties in full.	
<u>Optional/General</u> comments	The R' value for correlation table need to be indicated for simplicity of understanding. The author mentioned acceptability taste in the discussion section, however no data is presented on such. Check the reference section thoroughly and make sure all sited references are mentioned.
