

SDI Review Form 1.6

Journal Name:	Asian Journal of Agricultural and Horticultural Research
Manuscript Number:	Ms_AJAHR_40392
Title of the Manuscript:	Effect of plant extracts on the postharvest quality and management of pepper anthracnose incited by Colletotrichum capsici (Synd) Butler and Bisby on pepper (Capsicum frutescens L.) fruits.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)																																																										
Compulsory REVISION comments	No Compulsory REVISION comments																																																											
Minor REVISION comments	<p>There are some language and technical mistakes</p> <p>This manuscript does an excellent job demonstrating the effect of plant extracts on the postharvest quality of pepper fruits and the management of <i>Colletotrichum capsici</i>, the causative agent of anthrax of pepper fruits</p> <p>Although the idea of the manuscript is good and there is an excellent work, but there are some language mistakes throughout the text which are listed in the following table:</p> <table border="1"> <thead> <tr> <th>Page</th> <th>Line</th> <th>Wrong</th> <th>Correct</th> </tr> </thead> <tbody> <tr> <td rowspan="4">1</td> <td>21</td> <td>alternative</td> <td>an alternative</td> </tr> <tr> <td>29</td> <td>assists</td> <td>assist</td> </tr> <tr> <td>31</td> <td>botanical pesticide</td> <td>a botanical pesticide</td> </tr> <tr> <td>34</td> <td>confectionary</td> <td>confectionery</td> </tr> <tr> <td rowspan="2">2</td> <td>5</td> <td>Colletotrichium</td> <td>Colletotrichum</td> </tr> <tr> <td>17</td> <td>dearth</td> <td>a dearth</td> </tr> <tr> <td rowspan="4">3</td> <td>7</td> <td>on sterile</td> <td>with sterile</td> </tr> <tr> <td>10</td> <td>in 9cm</td> <td>Into 9cm</td> </tr> <tr> <td>13</td> <td>sub culturing unto</td> <td>subculturing into</td> </tr> <tr> <td>22</td> <td>fruit were</td> <td>fruit was</td> </tr> <tr> <td rowspan="2">4</td> <td>7</td> <td>cheese cloth</td> <td>cheesecloth</td> </tr> <tr> <td>7</td> <td>as extract.</td> <td>as an extract.</td> </tr> <tr> <td rowspan="2">8</td> <td>1</td> <td>soluble solid</td> <td>soluble solids</td> </tr> <tr> <td>8</td> <td>the root bark</td> <td>the extract of root bark</td> </tr> <tr> <td rowspan="2">10</td> <td>10</td> <td>cotton seed</td> <td>cottonseed</td> </tr> <tr> <td>17</td> <td>high rate</td> <td>a high rate</td> </tr> </tbody> </table>	Page	Line	Wrong	Correct	1	21	alternative	an alternative	29	assists	assist	31	botanical pesticide	a botanical pesticide	34	confectionary	confectionery	2	5	Colletotrichium	Colletotrichum	17	dearth	a dearth	3	7	on sterile	with sterile	10	in 9cm	Into 9cm	13	sub culturing unto	subculturing into	22	fruit were	fruit was	4	7	cheese cloth	cheesecloth	7	as extract.	as an extract.	8	1	soluble solid	soluble solids	8	the root bark	the extract of root bark	10	10	cotton seed	cottonseed	17	high rate	a high rate	
Page	Line	Wrong	Correct																																																									
1	21	alternative	an alternative																																																									
	29	assists	assist																																																									
	31	botanical pesticide	a botanical pesticide																																																									
	34	confectionary	confectionery																																																									
2	5	Colletotrichium	Colletotrichum																																																									
	17	dearth	a dearth																																																									
3	7	on sterile	with sterile																																																									
	10	in 9cm	Into 9cm																																																									
	13	sub culturing unto	subculturing into																																																									
	22	fruit were	fruit was																																																									
4	7	cheese cloth	cheesecloth																																																									
	7	as extract.	as an extract.																																																									
8	1	soluble solid	soluble solids																																																									
	8	the root bark	the extract of root bark																																																									
10	10	cotton seed	cottonseed																																																									
	17	high rate	a high rate																																																									
Optional/General comments	<p>The paper represents a good work in trying to find the effect of plant extracts on the postharvest quality of pepper fruits and the management of pepper anthracnose caused by the fungus, <i>Colletotrichum capsici</i></p> <p>The idea of the paper is acceptable and it is written in good order and there are few language mistakes.</p>
