PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This paper can be published after completing the revision of the manuscript. All comments are added in the PDF file of the manuscript. Population size and procedure of determining sample size must be stated. I can't understand how only five variable could explain 95.6 percent of variation for an agricultural crop. Result should be re-checked as four out of five variable were highly significant.	
<u>Minor</u> REVISION comments	Result should be compared with other existing research work.	
<u>Optional/General</u> comments	Quality of the paper will increase to a decent level after completing all the suggested revision.
