PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - Last line on the abstract, please, indicates the extended shelf-life. From? to? - Are there some works on this (ash-based storage media)?... please, briefly referenciate in your INTRODUCTION. - Talk more about or discuss the results on 3.1. (for example: Are these temperature and relative humidity expected? They have influenced on the effect of ash-based...?) and these results are missing in the abstract. - Be consistent on your statistic probability. Is it $p < 0.01$? or $p \leq 0.01$? - Include, in the MATERIAL AND METHODS, how did you assess? Fruit firmness, Pericarp thickness, Moisture content, Postharvest decay and Shelf life. 	
Minor REVISION comments	Move the phrases from line 32 to 37 to make smart the INDRODUCTION. Delete the phrase on line 69.	
Optional/General comments	<ul style="list-style-type: none"> - Give space between line 88 and 89. - Format table 2 in order to fit in the window. - Table 3 to table 7 doesn't make sense on putting the column and line of mean. Delete it (each ash-based and cultivar are completely different). - Be consistent on the references. Example: Some journal names are written in italic and others NO. Other article titles are written with capital letters others NO. Separation by COMMA and others by COLON. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
