

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_40990
Title of the Manuscript:	OCCURRENCE OF GAS HYDRATES IN SEDIMENTS IN “EMOBS” FIELDS OFFSHORE WESTERN NIGER DELTA: POCK MARKS AND SEEPAGE SITES.
Type of Article:	

PART 2:

FINAL EVALUATOR’S comments on revised paper (if any)	Authors’ response to final evaluator’s comments
<p>Figure one is not correctly cited. Chuku, H.C and Ibe A. C. (2015). Topography and lithofacies of the sea floor in Meren field, offshore Western Niger Delta. IJSIT, 2015, 4 (6), 524 -551. – is different from Chukwu et al 2015. Please this should be noted and corrected and all other similar errors.</p> <p>Again, like I said, I still have the following issues with this manuscript. It is not really portraying a scientific research, so I am struggling with allowing it pass. For instance, here are the objectives: To Determine sea bed bathymetry Determine shallow subsurface profile To Identify the existing sea floor features and subsea facilities To determine the common and peculiar sedimentary processes in the fields.</p> <p>These have not been adequately addressed, at least, mentioned in the conclusion to show whether the authors addressed the issue. If they can show that, then it can pass.</p>
