FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Some final typos:</p> <p>Paragraph after eqs. (1)-(3): Please, rewrite as "Further, λ or γ has the same meaning, finite population correction factor. The estimation of variance plays, in general, a significant role in life sciences, as it is quite often used in sampling theory, while much effort have been made..."</p> <p>Paragraph after Table 3: Please, rewrite as "These values are given in Table 3."</p> <p>Conclusion: Please, rewrite as "Each estimator of the class of the proposed estimators is compared to the corresponding existing estimator. Numerical explorations were used..."</p> <p>The revised manuscript seems OK.</p>
