<u>Compulsory</u> REVISION comments	A very well written openion article. Authors has very well described most of the aspects of DNA Polymerases with Microscopic Reversivility and kinetics.	Thank you!
<u>Minor</u> REVISION comments	There are few spelng mistakes please recheck: ex. line no. 63 Exclamation marks (!) has extensively used in this article, is there any special reason. Use of exclamation mark in scientific writing should be avoided.	Noted Exclamation marks indicate that the arguments are of extraordinary conceptual interest, and cannot entirely be avoided in a paper of this type.
