

SDI Review Form 1.6

Journal Name:	Asian Journal of Case Reports in Surgery
Manuscript Number:	Ms_AJCRS_43714
Title of the Manuscript:	A RARE CASE OF GALL STONE ILEUS WITH OBSTRUCTION OF SMALL BOWEL
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>This is a case report of a typical case of gallstone ileus. The manuscript is poorly and superficially written. The English is suboptimal, superficial and lacks scientific robustness. The vast majority of references are very old despite the presence of more than 1000 articles on the subject. The short abstract indicates that a review article should be expected. However, most importantly, even in its best corrected form, this article would have nothing to add to the current literature as it describes a common case of gallstone ileus with the addition of a poor discussion that repeats a limited proportion of well-established knowledge on the subject.</p> <p>Unknown whether appropriate consent has been obtained.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
