General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	What is the sampling method to recruit 60 participants in this study? (line 91) Please explain more on how the participants were randomly assigned into 3 groups (A, B and C). (line 92) Result section should include a brief explanation text rather than reporting the tables only. In "Systolic Blood Pressure and exposure to Paint Mist and Saw dust" and "Diastolic Blood Pressure and exposure to Paint Mist and Saw dust" sections, the discussion about DBP were repeated. Please revise line (187-192) and (198-201).	
<u>Minor</u> REVISION comments	What statistical software was used for data analysis? Please write the ethical code for your research.	
<u>Optional/General</u> comments	An informative and useful research findings. Subject to the above-mentioned review/ comments, the manuscript will contribute to the knowledge on the effect of industrial pollutants on cardiovascular and respiratory systems.
