SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>There are too many mistakes in text. I am of the opinion that publishing by this is not appropriate. After major changes are made, if the editors see fit, the article can be re-evaluated. I have specified some notes below and in text:</p> <p>1. The text not written according to the rules of the journal for the case reports. (Abstract, Introduction, Presentation of Case, Discussion, Conclusion, Acknowledgement)</p> <p>2. Sections (main headings; introduction, material and methods,..) are not numbered.</p> <p>3. The ethics committee approval certificate received? And patient approval certificate received?</p> <p>4. The cites of references not written according to the rules of the journal in the text. They need to be enclosed in square brackets [...], not (...), and will be used after punctuation.</p> <p>5. The brand and origin of the used equipment and devices are not specified.</p> <p>6. Spelling, grammar and punctuation marks too much in the text.</p> <p>7. The brackets (fig..) should be use for figures, not square brackets.</p> <p>8. The reference list is not written according to the rules of the journal.</p> <p>9. There are too many figures and reference numbers, journal rules have been excluded (Max. 20 reference, 5 figure).</p>	<p>As recommended we corrected the mentioned mistakes in the text.</p> <p>1- As recommended, the paper has been revised in accordance with the rules of the journal for the case reports. (Abstract, Introduction, Presentation of Case, Discussion, Conclusion, Acknowledgement)</p> <p>2- We numbered sections</p> <p>3- A patient approval certificate was provided and sent with these papers.</p> <p>4- All references were checked and revised in accordance with the rules of the journal.</p> <p>5- The brand and origin of the used equipment and devices were specified as recommended.</p> <p>6- Spelling, grammar and punctuation mistakes were corrected.</p> <p>7- We changed all square brackets into normal brackets for figures</p> <p>8- All references were checked and revised in accordance with the rules of the journal.</p> <p>9- The number of figures and references has been modified in accordance with the rules of the journal for the case reports. (19 references/ 05 figures)</p>
Minor REVISION comments		
Optional/General comments		

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
