SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Title: I suggest it to be written as follow: Future Strategies Towards Control of mirid (Hemiptera: Miridae) and Common Insects Pests of Cocoa (<i>Theobroma cacao</i> L.) in Ghana. Abstract Well written, but it is too long, the author need to shorten it with his/her own words. Introduction; Some of the literature need to be cited e.g. line 50 to 53, line 60 to 67, 78 to 98. This section need to be revisited and cite literature which is research findings and that which shows that it was from another source. For example line 140 to 144 the author began with "in the past" clearly shows that this was taken from another source which need to be cited. Conclusion: Clearly shows the author's opinion	The title has been modified as suggested. The abstract couldn't be made shorter because of the information we want to convey to our readers All other queries have been largely addressed
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This article can be published after corrections that are mentioned above. The author need to cite literature that shows was from another source.	Noted
