SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Use American writing not British. Hematology instead of Haematology in the title. Don't begin the sentence with digital number. Line # 6. Line# 12: were determined weekly instead of were taken weekly. Line# 13: delete the following sentence "Data were analyzed using descriptive statistics and analysis of variance". Line# 14: Define the abbreviations. Line# 15: use the abdominal fat instead of the belly fat. Line# 27 there is no Jackson, et. Al., (1982a) in references. There is Jackson, S., J. D. Summers, and S. Leeson. (1982b). Please check your references carefully. Line# 36: what the meaning of "Also nutrient levels in <u>blood and blood fluids</u>" Line# 82: compared using Duncan's multiple range instead of compared using Duncan's multiple comparison procedure of SAS software. Table# 3: provide the measuring unit for each parameter. Table# 4: Correct the feed conversion ratio (FCR) 22.19 ± 0.25^a in the first column.	American writing is now adopted and necessary changes effected. The digital number has been changed to words. Line #6 and #12 were corrected as indicated. Line #13 was deleted as instructed Line #14: Abbreviations defined as instructed Line # 15: Belly fat has been changed to abdominal fat. The references has been worked on and corrections made where necessary as instructed Line #36: blood and blood fluids changed to blood and body fluids. Table #3: the measuring unit for each parameter has been provided. Table #4: FCR corrected 2.19 ± 0.25
Optional/General comments	It was preferable to extend the trail to 5 weeks of age.	The trial only stopped at 4 weeks (28 days) of age
