

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_22110
Title of the Manuscript:	Evolution of total protein content and the ratio of sugar-protein in dry matter of Dactylis glomerata and Festuca pratensis variations depending on the type of soil
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. Some suggestions were shown on WORD 2. in material and method section; statistical analysis method was not explained in details. 3 in table 4, 5, 6 and 7, letter was not written according to Tukey test. Only LSD value was given in table as foot note. you should give letter in table according to Tukey test. If you want, you should give LSD values as a foot note, TOO. 4. interaction should be discussed instead of main effect. Thus, in results and discussion section should be reviewed. Some suggestion is given in word.	The all changes proposed in the manuscript were applied. It was explain the meaning and was removed unnecessary parts of the text. However, the authors retained as proposed in the original work, the way to discuss of results at the level of main and important factors interact. In their view, this form is more interesting.
