

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_ AJEA_20577
Title of the Manuscript:	Phenotypic Diversity of Selected Dual Purpose Forage and Grain Sorghum genotypes
Type of the Article	Original research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript represents a valuable study on phenotypic variability in forage and grain sorghum genotypes grown in Uganda and Kenya. I have to appreciate excellent presentation of the experimental data including a list of all sorghum genotypes investigated as well as excellent presentation of statistical results (multivariate ANOVA with interactions, cluster analysis, principal component analysis). A manufacturer of the statistical programs used (GenStat and R) has to be given. I can therefore recommend the manuscript for publication. I have only a few formal comments on the manuscript: Abstract, line 2: Insert the word "to" in the sentence "...and to identify traits that might contribute to genetic improvement." Abstract, line 5: Insert a comma after the words "at Makerere University,..." Abstract, line 10: Insert the verb "were" in the sentence "Morphological and agronomic data were taken for each genotype..." Introduction, line 14: Correct the spelling of the plant	

SDI Review Form 1.6

	scientific name "<i>Sorghum bicolor</i>" Introduction, line 17 and further in the manuscript text: Insert a comma before the words "especially" and "respectively". Insert a comma after the word "therefore,."	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
