

Author's feedback against Editor's Comment:

I still have some questions that remain to be addressed before the manuscript can be accepted for publication:

To the authors:

- 1) Abstract: Please include (USA) after "Alabama" – **The authors have corrected this**
 - 2) Main text: "United States (U.S.)" should be "United States of America (U.S.A.)" - **The authors have corrected this**
 - 3) First line; page 2: remove bold-face from the "t" in "team" - **The authors have corrected this**
 - 4) All figures: Legends must be more informative - **The authors have addressed this throughout the paper**
 - 5) Please improve the legend to Fig. 1 (make it more informative) and highlight the cities that hosted the workshops in the map. Please move the legend close to the Figure. The cite the accessed website accordingly to standard rules - **The authors have addressed this highlighting in green the cities where the workshop was conducted**
 - 6) Page 3: "Organic Food Survey (OFS) and Questionnaire of Purchase Intent (QPI)" bold face in "Questionnaire of" required - **The authors have corrected this**
 - 7) Fig. 2 – Please make the legend more informative. I fail to understand why the standard error??/deviation?? (make it clear in the legend) bar of "session content" is not linked with the bar - **The authors have corrected this by reviewing the data and correcting the chart**
 - 8) Reference [15] must be deleted from the list - **The authors have deleted this reference**
- All Tables must be using the same format (and not as they appear in the submitted MS) - **The authors have corrected this, using a basic table with the required rows and columns as needed.**
