SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is quite understandable in the introductory/historical part but is almost not readable in the economic part. Too much mathematic formula not well clarified to the reader. The literature is not adequate or pertinent in several cases. Strong rewriting of the economic part is requested	Econometrics is the application of mathematical and statistical techniques to economics in the study of problems, the analysis of data, and the development and testing of theories and models. For that reason, it was presented first in mathematical form. However, the economic part has been explained.
Minor REVISION comments	Implement the pertinent literature	
Optional/General comments
