Comment	Authors' Reply
1. Key words must be changed because they should not be the same as words used in a title. Currently all keywords there are in the title.	Keywords changed
2. The manuscript must be arranged according to the Journal requirements. Authors must carefully read the "Author's Instruction" (available at http://www.sciencedomain.org/page.php?id=general-guideline-for-authors) and change the manuscript according to this instruction. I recommend using 'MS word SDI paper template' which can be downloaded from above-mentioned web page.	Manuscript changed according to Journal requirement as given in "Authors' Instruction" and as per MS word SDI paper template. Tables inserted in the text at appropriate place. Font type and size changed.
The most important corrections needed are:	
• literature cited in the text must be numbered and references must be listed at the end of the manuscript in order they appear in the text, not alphabetically.	Literature cited in text now changed by giving numbers and references are cited according to numbers.
• the sections and subsections must be numbered.	Sections and sub-sections have been assigned numbers.
• after Conclusion, two additional subsections (COMPETING INTERESTS and AUTHORS' CONTRIBUTIONS) must be added.	Two additional subsections 'COMPETING INTERESTS' and 'AUTHORS' CONTRIBUTIONS' have been added.
• list of references needs special attention. It must be arranged according to the Journal requirements.	List of references arranged according to Journal requirement.
