

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_24217
Title of the Manuscript:	Digesta Viscosity and Microbial Load in Broilers fed Wheat-Based Diets Supplemented with Roxazyme G2G
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Line 77- 79: Gut tissue samples were serially diluted from 10⁻⁷ to 10⁻³. From each dilution, 0.1 ml of the sample was plated onto the appropriate medium for enumeration of bacteria. How to make serial dilution of tissue samples? Table 3: Gut length had to be measured according to sidelong length of the body. The differences found may be due to differences in chicken's body (it has to be mentioned in the text). Line 77: The bacterium Clostridium perfringens was mentioned in this line (materials and methods) but were not mentioned in table 4 (results and discussion section)	The correction has been effected. The 'Gut tissue' should be 'The digesta' The observation is noted and effected. The mix-up has been corrected
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
