SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	There was no enzyme and enzyme x diet interaction effects on performance. However, there were their effects on gut histomorphology and viscosity. This conflicting "effects" should be indicated, and conclusion statement should be rephrased.	Yes. We observed interactive effect of enzyme x diet on gut histomorphology and viscosity which should have expectedly resulted in improved performance. It could be as a result of some factors such as the strain of the birds, management or enzyme type. The conclusion statement has been rephrased. Thank you for the observations
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
