SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- Necessity and purposes of this study should be explained more clearly in section introduction. - There is no statistical analysis for data. Only statistical data had been presented in Tables. At least, percent and index should be calculated in Tables. - There are 2015 data of TurkStat in Turkey. Therefore, data should be renewed. - New references should be added to the reference list. There are so many studies on this subject in Turkey. - The quality of the English satisfactory is inadequate.	-It was added to the last paragraph of Introduction. -We could not analyse the data because they were obtained from the ready prepared tables. We did not do any survey about the data. -We did these changes in related lines 76 -We did not add these references because their data were not current. -We asked a academician in our faculty who completed his PhD in United Kingdom. He edited the English language of manuscript as given yellow colour.
<u>Minor</u> REVISION comments	- Some statistical data should be shortened in text. For example: 27.3 million tons should be written instead of 27.815.682 million tons. - Hectare (ha) should be written instead of decare (da) for production area. - TurkStat should be written instead of TUIK for shortening of Turkish Statistical Institute. - Data related to domestic vegetable market, vegetable consumption and vegetable foreign trade of Turkey should be presented. - References should be written with English (not Turkish) - Numbering is not needed in section conclusion.	All items mentioned here were corrected as shown in main text. Also, partially we added the data related to domestic vegetable market, vegetable consumption and vegetable foreign trade of Turkey should be presented in lines 77-78-79
<u>Optional/General</u> comments	- It can be interesting for readers of AJEA. Suggestions can bring for shareholder if it is revised.
