

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_26406
Title of the Manuscript:	Sorption - Desorption of Chlorsulfuron in Five Wheat Growing Regions of the Mara River Basin, Kenya.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		Structure of chlorsulfuron included. In Table 1, the CV% deleted
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The paper presents an important scientific knowledge that will aid weed control efficacy of this ALS-herbicide active ingredient; however what is the implications of this result on weed control efficacy?	In soils with high soil organic matter, more herbicide will be adsorbed therefore reducing the bioavailability of the herbicide for weed eradication.
