PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	• Paper is very simple, only few parameters have been studied. There is need to evaluate the study at advanced level • Results are too short to understand • Colcusion is not acceptable	Dear reviewer, thank you for the suggestions. We made some corrections and added the economic cost. This research has relevance for the Northeast region in Brazil, because there is a lack of searches in this region with organic fertilizer studies. The covariance analyzes were performed in order to summarize the data for better interpretation and presentation.
