FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Introduction The authors need to explain more details about the Custard Apple, such kind of plant might not be known in other countries Material and Methods 2.3 – Where is the paragraph about the Climatic? Results and Discussion Table 3 – The means are exposed without any statistical test, making the data non-useful. Please explain what kind of statistical test did you perform to compare the treatments. Figures 1-4 Please explain on the bottom of the figures the meaning of the bars (error bars with the standard error?). Figure 5 Are you sure that all data are inserted into the graphics? The correlation should be done with all data, not just the mean.
