FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear Editor, The prestige of any Journal depends to great extend on technical quality of papers. To my great surprise, after reading the authors statement: "Needful I have done as per the comments of evaluators", I have found a lot of omissions in the text. Noticebly, there are Journals guides for presentation of References. Moreover, the authors could detect easily a manner for data presentation – some terms, symbols and abbreviations are bizzarre. Please, find more details in the text.
