

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_22340
Title of the Manuscript:	Comparative evaluation of composite cassava root meal, palm oil and crayfish waste mixture as substitute for maize in broiler chicken diet
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Abstract: Row 10: Study Design- Please, should be revised the text. Should be mentioned correct the number of treatments for each growth phase (starter, grower and finisher). Row 22: Should be written with small letter the words as: final live weight, feed conversion ratio, finisher phase Row 23: How do you explain „chick phase“? Row 29: Please, should be corrected „broiler starter“. Row 31: keywords: Please correct „cray fish dust“ with „crayfish meal“ Introduction: Rows 41: Please correct „cyanonongenetic“. Row 57: Reformulation the first sentence - Please, revise the text. View the 49 row. Row 61: Should be written „in broiler chicken diets“. Materials and methods: Also, should be written „crayfish“ not „cray fish“. Row 81: Revision required „Gross Composition of experimental Diet of <u>Broiler Starter chicks</u> with composite cassava root meal, palm oil and <u>Cray waste mixture</u>“. Also, Table 1.	

SDI Review Form 1.6

	Row 93: Revision required „ Gross composition (%) of the experimental Diets of <u>Broiler finisher birds</u> with composite cassava root meal, palm oil and <u>Cray fish</u> mixture”. Also, the values from Table 2. Results and discussion Row 149: Please correct „ finisher birds” with „finisher diets” Row 150-151: In my opinion, if referred to broiler chickens should not be use the terms such as: „young birds and mature birds” In tables 3 and 4 should write average daily gain” (ADG) not „weight gain”, because weight gain is total weight gain in starter phase. In my opinion should be writing „Means followed by different superscript letters in the same row differ significantly” not „Mean on the same row followed by the same superscript are significantly different from each other”.
