SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This situation is associated with deteriorating fertility of the soils and consequent emergence of multiple nutrient deficiencies including those of micronutrients. (Give reference) Organic manuring by way of direct application of conventional farmyard manure, mulching or green manuring has declined over the years due to various operational constraints (Give reference) There is no objective(s) justification for the experiment. The Materials and Methods must be re-write. Environmental and soil condition must be stated e.g. climatic (rainfall, temperature, humidity and soil type. Summarised the physic-chemical methods used to carry out soil analysis and at what depth in meters did samples were taken. Spell out the parameters taken Line 124: Increase in ear weight is due the pleasant effect of..... (Rewrite). Remove pleasant rewrite like this: Increase in ear weight is due to effect of..... Line 130 the effect of legumes was not significant. (Grammatical error) legumes were not
