

SDI Review Form 1.6

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_25620
Title of the Manuscript:	Population dynamics of P. brassicae on different cauliflower genotypes
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study deals with very important issue for comertial cabbage production in Pengabib, Pacistan. The authors estimated 10 <i>Brassica campesrtis</i> genotype resistance for <i>Pieris brassicae</i> , the buterfly pest. The study is properly designed, documented and discussed.	
Minor REVISION comments	1. Title – you should to be more precise, and indicate the full name of the organism under consideration. Do you mean <i>Brassica oleracea</i> L. var. <i>botrytis</i> L. 2. Moreover, the pest name should be given in full. Now, it is only speculation , what have you studied. 3. My proposition is : Population dynamics of <i>Pieris brassicae</i> on different couliflower (<i>Brassica oleracea</i> L. var. <i>botrytis</i> L.) genotypes. 4. ABSTRACT – L-5 put full latin name of P. brassicae L14- add a conclusion sentence to the Abstract L. 253, 256 – correct the style of reference	
Optional/General comments
