

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	American Journal of Experimental Agriculture
Manuscript Number:	Ms_AJEA_26485
Title of the Manuscript:	Efficacy of Neem Seed Extracts on Maize Stem Borers Infestation and Yield Performance as Affected by Stem Borers
New title:	Yield Performance of Maize Treated with Neem Seed Extracts Against Stem Borers
Type of Article:	ORIGINAL RESEARCH PAPER

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I appreciate that the authors have accepted my suggestions, but unfortunately the new manuscript does not yet show the necessary corrections to satisfy my main questions. I suggested that the manuscript focus was changed from 'biological control' for 'agronomic characteristics and productivity of maize. I mean, all the text and not just the title. The discussion remains poor and, if my suggestion comes to be accepted, it should focus on increase of crop performance. Despite the increase in overall marks, I still can't indicate for publication without an extensive review of the manuscript.
