PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Presentation of actual data rather than emphasis on F-test probabilities only. Please see the comments in the manuscript. No mention of sugarcane yield in materials and Methods or Results and Discussion sections. So, either include the yield results in those sections or you cannot include this in conclusions.	
<u>Minor</u> REVISION comments	Suggested changes to the text to improve readability.	
<u>Optional/General</u> comments	Good introduction and literature review in introduction. But many of the cited references are not used in discussion of the results.
