Minor REVISION comments	Abstract - Line 24; a word is missing after price per ... - Line 27; add 'that' after concluded. Introduction - Line 88; Add year of publication after Abdurlahman and Illolo () - Line 89; Add 'of' exploitation Results and Discussion - Title of table 4 should read as; Income generated per week from fuelwood exploitation at Sokoto State Forest	
General comments	- Ownership of Sokoto forest should appear clearly on study area part. - The paper is quiet on gender participation. Let it be clear that all activities are done by men or some activities are done by women and probably why? - List of questionnaires should be attached as appendix - There is a bit of confusion; basing on the reported of exploitation, it seems that no one seems to be responsible to the forest and yet on the problem part you reported forest guards. Are these guards guarding the mentioned forest or are just in the road?. If they are guarding the forest how comes there is overexploitation?
