SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The figures 2 to 6 and the two tables should be discussed in the Discussion section to strengthen the authors' results vs. the mentioned literature.	Done. The discussion has been rewritten
<u>Minor</u> REVISION comments	I would advise to make the figure legends more autonomous/self-sufficient, adding the information on the sampling area and sampling period. There are some bugs marked with yellow in the text of the manuscript.	The figure 4 was splitted into figures 4 and 5. The figure legend became, in the rewritten manuscript more autonomous. The bugs were corrected.
<u>Optional/General</u> comments
