<u>Compulsory</u> REVISION comments	Generally, it is an interesting piece of work. However, there are few areas of concern. - The author has tried to trace the problem of the study but the problem statement and the significance of the study is not clearly stated - There are typos and some errors that require language editing. E.g. line 91- there is semicolon; before Trees. - Some sentences are too long, they require breaking in to two see e.g. line 41-43 is a single sentence. - The title is very long (27 words). It will look good if shorten.	- Agreed with the reviewer, discussion has been elaborated accordingly to highlight the significance of the study. - Agreed with the reviewer, language and typo errors have been corrected and highlighted in the manuscript. - Agreed with the reviewer, sentences have been broken down wherever required and highlighted wherever possible. - Agreed with the reviewer, title has been shortened and highlighted in the manuscript.
<u>Minor</u> REVISION comments	- The author should try rewording of sentences that start with numbers e.g. line145 and lines 178-79.	- Agreed with the reviewer, corrected and highlighted in the manuscript.
